Make it your own

Pair any traditional logset or contemporary scene with any of our seven liners to create a vision that's completely yours.

Go even further and customize with a special coal or glass media bed.

Versatility

We have developed a burner system that is not only convertible from natural gas to propane, but can switch from traditional to contemporary burner media without changing the burner system.

Media kits such as logsets and contemporary scenes must be ordered along with the unit.

DECORATIVE CONFIGURATIONS

DEL RAY

SQUARE

TRADITIONAL LOGSETS AND MEDIA

Hand painted to perfection

Each logset is designed to work with the universal burner system that ensures a realistic flame pattern that fills the firebox.

All logsets come standard with a black coal firebed and glowing ember media.

CONTEMPORARY SCENES AND MEDIA

Modern design at its best

Our contemporary scenes have been designed to create the best possible environment for tall, robust flames and pair beautifully with any room.

All contemporary scenes come standard with glass media, rocks, ceramic chips, and glowing ember media.
